Help protect your staff from Covid-19 with

Hangerscreen

A lightweight and stylish transparent screen which allows staff working behind counters or cash registers to protect themselves against coughs and sneezes and help to prevent the spread of viruses such as Covid-19.

Next day dispatch available

Hangerscreen requires no drilling or installation skills and can be easily fixed to false or lowered ceilings. In a matter of seconds, Hangerscreen can be attached by magnets or sticky pads and will naturally hang from the wire guiding with the weight of the bottom bar keeping the screen taut and in place. Ideal for corporate and commercial environments as the wire side guides offer a barely-noticeable solution making for a stylish and neat safety feature.

Provides protection:

With social distancing in place and the country under lock down, essential businesses have a duty of care to put into place steps to protect their staff from catching Covid-19. Hangerscreen provides that extra protection to help control the virus and provide some additional reassurance for customers as well as staff.

Quick to install:

Lightweight and simple to install, you do not need any specialist fitting skills to fit Hangerscreen. In fact, you can install this in a matter of seconds.

Simple to clean:

Hangerscreen is made from a clear plastic film and plastic components which are easy to clean and sanitise with a mixture of mild detergent diluted with water.

Made to measure:

Hangerscreen can be made to measure to suit your requirements or pre-set sizes.

Please get in touch with your business development manager today for more details or to request a quote.

Also available:

For another solution please ask for more information on our Rollerscreen. Ideal for environments such as hardware stores, supermarkets, pharmacies, banks, takeaways and many more.

Rollerscreen fixes to the ceiling and hangs down in place to provide protection for when staff come into contact with the general public.
