

# S SERIES

STANDARD FOR HIDING ROLLER BLINDS

## DESIGNED TO DISAPPEAR

Blindspace® S Series is a concealment box made to hide roller blinds with minimal visual impact. The box is installed during construction with the space accessible for blind installation when the room is completed. It features the patented Blindspace® Safety Hinge that secures the cover in place and can be installed in any direction, allowing for side boxes to hide blind side channels or guide wires. Popular in floor-to-ceiling windows and sliding doors, S Series can be installed to future-proof buildings to have the option to install concealed blinds in the future.

**BL'NDSPACE®**

FEATURES

- Seamless appearance after painting**

Plaster is feathered over skim coat flanges to hide the box leaving only a thin hairline between the ceiling and the Blindspace® cover.
- Cover painted to match window or ceiling**

The cover can be provided in specific RAL colour or painted at site with primer and emulsion paint, to match window or ceiling.
- Safety hinge securing the cover in place**

The safety hinge ensure that the cover is not falling to the floor if accidentally opened.
- Cut to finished length, maximum 6m**

Blindspace boxes and covers are supplied by manufacturer cut to finished length or in 6m lengths. Splice pins and plates are supplied to align boxes for lengths longer than 6m.
