

## CONNECTED BLINDS AND CURTAINS

Our WireFree motorisation range, compliments all kinds of blinds and curtains with easy installation. Connect to more choice and confidence with WireFree from Somfy. **Strong - Quiet - Reliable**

This innovative wireless technology is the next generation of easy living and accessible home comfort solutions. Free from barriers it delivers a better way of life that brings true peace of mind.

Be inspired by the versatility of Wirefree solutions from Somfy. This technology offers unlimited scope, and has the scale and power to automate and connect an extensive range of blinds and curtains across many window types.

There's no need for wiring and the sleek designs blend seamlessly into any interior décor. You benefit from clean and easy installation - saving time and money.

WireFree solutions offer a new level of comfort and convenience by giving you control of natural light, temperature and privacy. WireFree motorisation means no cords which offers you a child safe solution. With near silent operation you can enjoy peace and quiet with discreet and unobtrusive technology.

Make your home a smart home with the TaHoma Hub or Connectivity Kit with the optional added benefit of voice control.

	Max Blind Size	Min Recess Size	Nm/Speed	Barrel Options	Code
